

 **PacsSCAN™**

Pacs**SCAN**™ lets you scan documents, create electronic forms and import JPEGs, AVIs and MPEGs from any department to any PACS/ EHR. Eliminates paper, improves workflow and provides access to important clinical documentation, such as tech notes, screening forms and order information. In PACS, view documents, electronic forms and clinical images along with patient studies at the point of care.

Pacs**SCAN**'s simple user interface allows anyone to scan documents and import JPEGs, AVIs and MPEGs without prior knowledge of PACS.

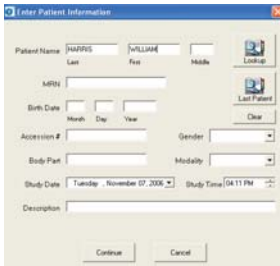

Includes additional features to import and localize DICOM CDs/DVDs from a wide range of PACS vendors.

Industry leading document scanning software

Why PacsSCAN?

- ⚙ **Easy** – Easily scan documents and create electronic forms from any department to any PACS/EHR
- ⚙ **Fast** – Import JPEGs, AVIs and MPEGs in less than one minute
- ⚙ **“It just works”** – Compatible with over 25 PACS solutions

How it works... As easy as 1, 2, 3!!!

1. Select patient/study demographics from your RIS or DICOM archive

2. Scan the document and click "Send"

3. The document is now matched with the appropriate study

Includes Electronic Forms

Pacs**SCAN** allows you to create and distribute electronic forms to improve efficiency and workflow – eliminates paper scanning entirely!

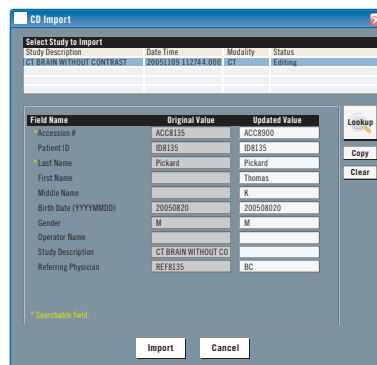

- ⚙️ Eliminate paper "Print & Scan" cycle
- ⚙️ Optional stylus tablet for rapid data entry
- ⚙️ Auto-fill key fields with MWL

Rapid data entry with stylus tablet

Now includes DICOM CD/DVD import!

- ⚙️ Reads all DICOM-compliant and some not-so-DICOM-compliant CD formats
- ⚙️ Import patient demographics – supports DICOM Modality Worklist (MWL) for accurate demographic entry
- ⚙️ Edit and localize patient demographics – change fields, such as PatientID/MRN and accession number, prior to import

Need to export DICOM studies to CD/DVD? Add **MediaWriter™** for a complete and portable multimedia connectivity solution.

PacsSCAN Features

- ⚙️ Simple user interface allows anyone to scan documents without prior knowledge of PACS. No training required.
- ⚙️ Interfaces to RIS worklist or DICOM Archive to provide automatic loading of patient demographics for ease of use. DICOM Modality Worklist (MWL) ensures an accurate match with patient studies. Includes extensive bar code support for rapid demographic entry.
- ⚙️ Scan and send documents to PACS/EHR using TWAIN compliant scanners. Validated interoperability with over 25 PACS.
- ⚙️ Direct import of multimedia formats including JPEG, bitmap, TIFF, PNG, AVI/MPEG and DICOM CD/DVD.
- ⚙️ Access to confidential patient information is protected by username and password for each user. Supports LDAP/Active Directory for single sign-on convenience. Automatic time-out feature logs off after a predetermined period of inactivity.
- ⚙️ Includes lossless and lossy JPEG2000 compression to decrease storage requirements and transmission times.
